Ricardo Patiño

Renewal Engineer | Software Developer | Data Analysis | Continuous Improvement

https://linktr.ee/rickpatinor

Profile

Advanced student in systems engineering, with 15 years of experience in the technology sector, integrating advanced knowledge in networking, IT support, and software development. With strong commitment to leveraging technical expertise in web development and contract management is demonstrated, reflecting enthusiasm for impactful solutions that drive user engagement and satisfaction. A blend of analytical skills and a background in technology equips a readiness to contribute effectively within a collaborative environment. Passion for process improvement and adaptability to evolving challenges is evident, aligning well with goals focused on innovation and excellence in service delivery.

EXPERIENCE

CISCO Renewal Engineer 12/2024 - Present
OCP TECH

Manage and facilitate contracts renewals for services, software subscriptions, and corporate agreements. Focused on ensuring operational continuity, maximizing customer retention, and identifying opportunities for improvement or expansion.

- Increased customer retention by 30% through effective contract renewals.
- Led contract and subscription renewals to ensure operational continuity, maximize retention, and identify expansion opportunities.
- Manage renewal pipelines and monitored key contract dates using Cisco Smart Account, CCW-R, PXP, Cisco Ready.
- Build reports and forecasts in Excel and Power BI to inform commercial and operational decisions.
- Apply Cisco commercial policies and strategic discounts to optimize contract value and customer outcomes.
- Managed Renewals budget contracts worth over $3 million annually at Cisco.

Presales Engineer 04/2022 – 12/2024
OCP TECH

- Led design and implementation of AI, facial recognition, and data-analysis solutions for enterprise digital transformation.
- Enabled sales through technical proposals, demos, presentations, and consultative value propositions aligned with client needs.
- Oversaw solution deployments, final IT designs, CI/CD improvements, and automation increasing team productivity.
- Developed responsive multi-channel campaigns and web components using HTML, CSS, JavaScript, React, SQL, Groovy.
- With SAS, built ML pipelines and automation with Python, Shell, and batch scripts; generated data for analytics.
- Managed testing, debugging, system administration, GitHub workflows, and JSON APIs for responsive data flow.

Campaign Manager 10/2021 - 01/2022
Movablelnk

- Built dynamic web content using HTML, CSS, and JavaScript.
- Managed campaign tickets in Jira and Salesforce, escalating to L2 to ensure deliverables.
- Implemented automated QA and VM test environments across lifecycle, ensuring zero errors.
- Tracked build hours for accurate customer billing.
- Managed customer portfolio, maintained systems, debugged software, tracked KPIs, implemented recovery plans.

Network Support Specialist
Cisco
12/2018 - 10/2021

- Provide technical support and product information.
- Manage incidents and escalate them as needed.
- Configure and restore network account access, including access to network profiles for internal and external users.
- Analyze and troubleshoot problems, demonstrating the ability to work independently and as part of a team.
- Effectively implement corrective action plans and recover from delays.

Projects:

Hotel Website Developer
Hotel Villa Grace

- Build a hotel's website that allows direct interaction with potential guests and staff through a live chat platform integrated into the page. Code a full website, live chat access, with AI support, that allows easy access to relevant information such as prices, photos, and videos of the hotel. Giving worldwide access to potential customers to the hotel.
    - https://www.hotelvillagrace.com (WebApp. React, Typescript, IA chatbot)
    - https://rickpatinor.wixsite.com/hotelvillagrace (CMS, HTML,CSS)

EDUCATION

- BSSE Software Engineer, Fidelitas University 01/2023 – 08/2026
- BBA Business Management, Latina University 01/2006 – 12/2008

SKILLS

Hard Skills

- Networking: CISCO Telecommunications.
- Web Development: JavaScript, Java, React, PHP.
- Programming: HMTL, CSS, Bootstrap, JavaScript + ReactJS, Context, Flux, Hooks, Python, shell, batch, Flask, Json, REST APIs, React, Groovy, Data Sciences and Machine Learning.
- Data Bases: SQL, NoSQL, MySQL Server, SQL alchemy.
- Apps: Digital Ocean, Postman, Email on Acid, Expressions, GitHub, JIRA and Salesforce.
- SRUM: Daily scrum, Planning, and Retrospectives.

Soft Skills

- Analytical, problem-solving, work independently and teamwork.
- Solving problems.
- Adaptability, Malleable, fast learner.
- Leadership, critical thinking, process Improvement.
